

8<sup>th</sup> February 2018 – For Immediate Release

Software Alliance Limited ("SAL"), the developers of the award-winning Mo.net financial modelling platform, today announces the release of Mo.net 7.1. The release includes a range of new features, minor enhancements and improvements primarily focused on:

- enhancing the integration & governance features of the platform, particularly in relation to front & back-office calculations / quotations
- refining & standardising the overall user experience / look & feel of the user interface, and
- further developing the features and functionality delivered as part of version 7.0.

"we are very pleased to provide our clients with the latest release of Mo.net. We have a clear strategic vision to offer a service-orientated financial modelling platform that supports each stage of the insurance business lifecycle and the additional features of 7.1 directly contributes to this." stated Laura Edwards, the Director of Business Development for Software Alliance.

If you are looking for a solution to the next generation of end-to-end Insurance Modelling then consider Mo.net and Software Alliance.
